WHEREAS, THE FRONTIER LAKES PROPERTY OWNERS ASSOCIATION, INC. (the “Association”) is charged with administering and enforcing those certain covenants, conditions and restrictions contained in the recorded Declarations for the various sections of the community (collectively referred to as the “Declarations”);

WHEREAS, Section 202.011 of the Texas Property Code provides for the regulation of flag display by a property owners’ association;

WHEREAS, Chapter 204, Section 204.010(a)(6) of the Texas Property Code empowers the Association acting through its Board of Directors, to regulate the use, maintenance, repair, replacement, modification, and appearance of the subdivision and to implement written architectural control guidelines; and,

WHEREAS, the Board of Directors (the “Board”) has determined that in connection with maintaining the aesthetics and architectural harmony of the community, and to provide clear and definitive guidance regarding the display of flags therein, it is appropriate for the Association to adopt guidelines regarding the display of flags within the community.

NOW, THEREFORE, BE IT RESOLVED THAT the following Guidelines are adopted by the Board of Directors.

GUIDELINES

- I.** These Guidelines apply to the display of flags (“Permitted Flags”)¹:
 - a. the flag of the United States;
 - b. the flag of the State of Texas; and
 - c. the official flag of any branch of the United States armed forces.
- II.** The flag of the United States shall be displayed in accordance with 4 U.S.C. Sections 5-10.
- III.** The flag of the State of Texas shall be displayed in accordance with Chapter 3100, Texas Government Code.

¹ “Flags” shall be referred to as defined in Texas Property Code Section 202.011 (a).

- IV.** These Guidelines do not apply to any flags other than the Permitted Flags listed in Section 1 above including, but not limited to:
- a. flags for schools, sports teams, businesses or foreign countries; or
 - b. flags with marketing, seasonal, historical, commemorative, nautical, political or religious themes; or
 - c. historical versions of flags permitted in section 1 above.
- V.** Permitted Flags may be displayed subject to these guidelines. Advance written approval of the Architectural Control Committee is required for any free-standing flagpole and any additional illumination associated with the display of Permitted Flags.
- VI.** Permitted Flags must be displayed in a respectful manner in accordance with the current relevant federal, state or military code.
- VII.** Permitted Flags must be displayed from a pole attached to a structure or to a free-standing pole. Permitted Flags may not be draped over or directly attached to structures. For example, a Permitted Flag may not be laid across a fence or stapled to a garage door.
- VIII.** Permitted Flags shall be no larger than three foot (3') by five foot (5') in size.
- IX.** Only one Permitted Flag may be displayed on a flagpole attached to a structure. Up to two Permitted Flags may be displayed on an approved free-standing flagpole that is at least fourteen feet (14') tall.
- X.** Flagpoles must be constructed of permanent, long-lasting materials with an appropriate finish that is harmonious with the dwelling.
- XI.** A flagpole attached to a structure may be up to six feet (6') long and must be securely attached with a bracket with an angle of 30 to 45 degrees down from vertical. The flagpole must be attached in such a manner as to not damage the structure. One attached flagpole is allowed on any portion of a structure facing a street and one attached flagpole is allowed on the rear or backyard portion of a structure. Brackets which accommodate multiple flagpoles are not allowed.
- XII.** Free-standing flagpoles may be up to twenty feet (20') tall, including any ornamental caps. Free-standing flagpoles must be permanently installed in the ground according to manufacturer's instructions. One free-standing flagpole is allowed in the portion of the owner's property between the main residential dwelling and any street and one free-standing flagpole is allowed in the rear or backyard portion of a property.
- XIII.** The display of a flag, or the location and construction of the supporting flagpole shall comply with applicable zoning ordinances, easements, and setbacks of record.

- XIV.** Free-standing flagpoles may not be installed in any location described below:
- a. in any location other than the Owner's property; or
 - b. within a ground utility easement or encroaching into an aerial easement; or
 - c. beyond the side or rear setback lines (for example, on a lot with a 10' side setback line, a flagpole may not be installed closer than 10' from the side property line); or
 - d. beyond half the distance of the front setback line (for example, on a lot with a 30' front setback line, a flagpole may not be installed closer than 15' from the front property line); or
 - e. closer to a dwelling on an adjacent lot than the height of the flagpole (for example, a 20' flagpole cannot be installed closer than 20' from an adjacent house).
- XV.** No owner shall display a flag or flagpole on property that is owned or maintained by the Association or owned in common by the members of the Association.
- XVI.** Lighting may be installed to illuminate Permitted Flags if they will be displayed at night and if existing ambient lighting does not provide proper illumination. Flag lighting must:
- a. be ground mounted in the vicinity of the flag; and
 - b. utilize a fixture that screens the bulb and directs light in the intended direction with minimal spillover; and
 - c. point towards the flag and face the main structure on the property or to the center of the property if there is no structure; and
 - d. provide illumination not to exceed the equivalent of a 60 watt incandescent bulb.
- XVII.** Flagpoles must not generate unreasonable noise levels which would disturb the quiet enjoyment of other residents. Each flagpole owner should take steps to reduce noise levels by using vinyl or plastic snap hooks, installing snap hook covers or securing a loose halyard (rope) around the flagpole with a flagpole clasp.
- XVIII.** Flagpoles are allowed solely for the purpose of displaying Permitted Flags. If a flagpole is no longer used on a daily basis, it must be removed.
- XIX.** All flags and flagpoles must be maintained in good condition. Deteriorated flags must be removed and promptly replaced. Deteriorated or structurally unsafe flagpoles must be promptly repaired, replaced or removed.

These guidelines are effective upon recordation in the Public Records of Montgomery County, and supersede any related guidelines which may have previously been in effect. Except as affected by Section 202.011 of the Texas Property Code and/or by these guidelines, all other provisions contained in the Declarations or any other dedicatory instruments of the Association shall remain in full force and effect.

RESOLUTION AND GUIDELINES REGARDING REGULATION OF COMPOSTING DEVICES, RAIN BARRELS, HARVESTING DEVICES, AND IRRIGATION SYSTEMS

THE STATE OF TEXAS §
 § KNOW ALL PERSONS BY THESE PRESENTS:
COUNTY OF MONTGOMERY §

WHEREAS, THE FRONTIER LAKES PROPERTY OWNERS ASSOCIATION, INC. (the “Association”) is charged with administering and enforcing those certain covenants, conditions and restrictions contained in the recorded Declarations for the various sections of the community (collectively referred to as the “Declarations”);

WHEREAS, Section 202.007 of the Texas Property Code provides for the regulation of composting devices, rain barrels, rainwater harvesting devices, and irrigation systems by a Property Owners’ Association;

WHEREAS, Chapter 204, Section 204.010(a)(6) of the Texas Property Code empowers the Association acting through its Board of Directors, to regulate the use, maintenance, repair, replacement, modification, and appearance of the subdivision and to implement written architectural control guidelines; and,

WHEREAS, the Board of Directors (the “Board”) has determined that in connection with maintaining the aesthetics and architectural harmony of the community, and to provide clear and definitive guidance regarding the installation and maintenance of rain barrels, rainwater harvesting devices, composting devices, and irrigation systems therein, it is appropriate for the Association to adopt guidelines regarding these systems.

NOW, THEREFORE, BE IT RESOLVED THAT the following Guidelines are adopted by the Board of Directors.

GUIDELINES

1. General Provisions

- a. Subject to written approval from the Architectural Control Committee, owner or resident may:
 - i. implement measures promoting solid-waste composting of vegetation, including grass clippings, leaves, or brush, or leaving grass clippings uncollected on grass;
 - ii. install rain barrels or a rain water harvesting system; or
 - iii. implement efficient irrigation systems, including underground drip or other drip systems.
- b. If an owner or resident is planting new turf, the Architectural Control Committee must approve such turf in writing in order to encourage or require water-conserving turf.

2. Composting Devices

- a. The Architectural Control Committee shall regulate the size, type, shielding, and materials, for or the location of a composting device so long as it does not prohibit the economic installation of the device on the owner's lot where there is reasonably sufficient area to install the device.
- b. This policy does not require the Architectural Control Committee to permit a device as described in this policy to be installed in or on property:
 - i. owned by the Association;
 - ii. owned in common by the members of the Association; or
 - iii. in an area other than the fenced yard or patio of a property owner.

3. Irrigation Systems

The Architectural Control Committee shall regulate:

- i. the installation of efficient irrigation systems, including establishing visibility limitations for aesthetic purposes.
- ii. the installation or use of gravel, rocks, or cacti.

4. Rain Barrels and Rainwater Harvesting

- a. This policy does not require the Architectural Control Committee to permit a rain barrel or rainwater harvesting system ("rainwater recovery systems") to be installed in or on property if:
 - i. the property is:
 1. owned by the Association;
 2. owned in common by the members of the Association
 3. located between the front of the property owner's home and an adjoining or adjacent street; or
 - ii. the barrel or system:
 1. is of a color other than a color consistent with the color scheme of the property owner's home; or
 2. displays any language or other content that is not typically displayed by such a barrel or system as it is manufactured;
- b. Other than gutters and downspouts conventionally attached to a dwelling or appurtenant structure, all components of the rainwater recovery system, such as tanks, barrels, filters, pumps, motors, pressure tanks, pipes and hoses, must be substantially screened from public view from any street or common area. Screening may be accomplished by:
 - i. Placement behind a solid fence, a structure or vegetation; or
 - ii. By burying the tanks or barrels; or
 - iii. By placing equipment in an outbuilding otherwise approved by the Architectural Control Committee.
- c. A rain barrel may be placed in a location visible from public view from any street or common area only if the configuration of the guttering system on the structure precludes screening as described above with the following restrictions:
 - i. The barrel must not exceed 55 gallons;
 - ii. The barrel must be installed in close proximity to the structure on a level base with the guttering downspout leading directly to the barrel inlet at a substantially vertical angle;
 - iii. The barrel must be fully painted in a single color to blend with the adjacent home or vegetation; and

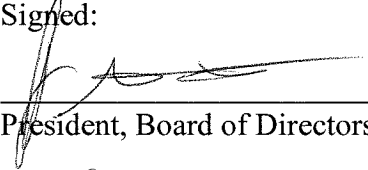

- iv. Any hose attached to the barrel discharge must be neatly coiled and stored behind or beside the rain barrel in the least visible position when not in use.
- d. Overflow lines from the rainwater recovery systems must not be directed onto or adversely affect adjacent properties or common areas.
- e. Inlets, ports, vents and other openings must be sealed or protected with mesh to prevent children, animals and debris from entering the barrels, tanks or other storage devices. Open top storage containers are not allowed; however, where space allows and where appropriate, the Architectural Control Committee-approved ponds may be used for water storage.
- f. Harvested water must be used and not allowed to become stagnant or a threat to health.
- g. All rainwater recovery systems must be maintained in good repair. Unused systems should be drained and disconnected from the gutters. Any unused systems in public view must be removed from public view from any street or common area.
- h. The Architectural Control Committee shall regulate the size, type, and shielding of, and the materials used in the construction of a rain barrel, rainwater harvesting device, or other appurtenance that is located on the side of a house or an any other location that is visible from a street, another lot, or a common area so long as:
 - i. it does not prohibit the economic installation of the device or appurtenance on the property owner's property; and
 - ii. there is a reasonably sufficient area on the property owner's property in which to install the device or appurtenance.

These guidelines are effective upon recordation in the Public Records of Montgomery County, and supersede any related guidelines which may have previously been in effect. Except as affected by Section 202.007 of the Texas Property Code and/or by these guidelines, all other provisions contained in the Declarations or any other dedicatory instruments of the Association shall remain in full force and effect.

COUNTY HARRIS §

WHEREAS, THE FRONTIER LAKES PROPERTY OWNERS ASSOCIATION, INC. (the “Association”) is charged with administering and enforcing those certain covenants, conditions and restrictions contained in the recorded Declarations for the various sections of the community (collectively referred to as the “Declarations”);

WHEREAS, Section 202.010 of the Texas Property Code provides for the regulation of solar energy devices by a property owners’ association;

WHEREAS, Chapter 204, Section 204.010(a)(6) of the Texas Property Code empowers the Association acting through its Board of Directors, to regulate the use, maintenance, repair, replacement, modification, and appearance of the subdivision and to implement written architectural control guidelines; and,

WHEREAS, the Board of Directors (the “Board”) has determined that in connection with maintaining the aesthetics and architectural harmony of the community, and to provide clear and definitive guidance regarding solar energy devices therein, it is appropriate for the Association to adopt guidelines regarding solar energy devices within the community.

NOW, THEREFORE, BE IT RESOLVED THAT the following Guidelines are adopted by the Board of Directors.

GUIDELINES

1. A solar energy device¹ shall not be permitted that:
 - a. as adjudicated by a court either threatens the public health or safety; or violates a law;
 - b. is located on property owned or maintained by the Association;
 - c. is located on property owned in common by the members of the Association;
 - d. is located in an area on the property owner’s property other than:
 - i. on the roof of the home or of another structure allowed by the Architectural Control Committee; or
 - ii. in a fenced yard or patio owned and maintained by the property owner;
 - e. if mounted on the roof of the home:
 - i. extends higher than or beyond the roofline;

¹ “Solar energy device” has the meaning assigned by Section 171.107 of the Tax Code.

- ii. is located in an area other an area designated by the Association, unless the alternate location increases the estimated annual energy production of the device, as determined by using a publicly available modeling tool provided by the National Renewable Energy Laboratory, by more than ten percent (10%) above the energy production of the device if located in an area designated by the Association;
 - iii. does not conform to the slope of the roof and has top edge that is no parallel to the roofline; or
 - iv. has a frame, a support bracket, or visible piping or wiring that is not in a silver, bronze, or black tone commonly available in the marketplace;
 - f. if located in a fenced yard or patio, is taller than the fence line;
 - g. as installed, voids material warranties; or
 - h. was installed without prior approval by the Architectural Control Committee.
2. The Architectural Control Committee shall not withhold approval of a solar energy device if it meets the provisions of this policy unless the Architectural Control Committee determines in writing that placement of the device as proposed by the owner constitutes a condition that substantially interferes with the use and enjoyment of land by causing unreasonable discomfort or annoyance to persons of ordinary sensibilities. For purposes of making this determination, the written approval of the proposed placement of the device by all property owners of adjoining property constitutes prima facie evidence that such a condition does not exist.

These guidelines are effective upon recordation in the Public Records of Montgomery County, and supersede any related guidelines which may have previously been in effect. Except as affected by Section 202.010 of the Texas Property Code and/or by these guidelines, all other provisions contained in the Declarations or any other dedicatory instruments of the Association shall remain in full force and effect.
